Hello, I'm Pablo 👋

Senior Backend Engineer · Backend Architect · Go Specialist
Sabadell (Barcelona)

About Me

- Backend engineer specialized in **Go**, focused on distributed and high-performance platforms.
- Solid experience in **modern architecture**: DDD, Hexagonal, CQRS, event-driven systems.
- Strong emphasis on **software quality**: TDD/BDD, integration testing, engineering best practices.
- Experienced in **cloud environments** (AWS, GCP) and **Kubernetes**.
- Particularly interested in observability, reliability, and system scalability.

Tech Stack

Languages

- Go (Golang)
- Shell/Bash

Backend & Architecture

- DDD · Hexagonal Architecture · CQRS/CQS
- Event-driven systems · Event sourcing
- SOLID · Clean Code

Databases

- PostgreSQL · MySQL
- Redis (cache, pub/sub, streams)
- MongoDB

Messaging

- RabbitMQ · NATS
- Pub/Sub (GCP) · MQTT
- SQS/SNS (AWS)

Cloud & DevOps

- Docker · Kubernetes (K3s, GKE, EKS)
- AWS · GCP · Terraform · Linux
- GitHub Actions · Bitbucket Pipelines · Ansible

Experience (Summary)

2017 – Present · Senior Backend Engineer / Backend Architect
Design and implementation of critical backend services in Go, distributed architecture,

microservices, event-driven systems, and cloud deployments.

2003 – 2017 · Backend Development
Development of backend applications, APIs, and integrations in sectors such as logistics, mobility, marketplaces, gaming, and SaaS.

Education

Diploma in Public Administration and Management – Universitat Jaume I (1997–2005)

Languages

- Spanish: native
- Catalan: native
- English: B2
